My thirty-seven year railroad career has given me a broad working experience with opportune to supervise employees in operating, mechanical, and engineering departments. My duties in support staff positions have given me the experience necessary to develop above average communication skills.

I have been fortunate to have worked on the system timetable committee, the task force that developed the SP drug and alcohol policy and protocol, before federal regulations mandated testing. I presented the SP's first arbitration cases that challenged drug testing.

I have considerable experience in accident and injury investigation and reporting. I have always felt that I maintained a cooperative and harmonious relationship with representatives of government agencies, the labor organizations.

WORK EXPERIENCE

During my thirty-seven year working career, I have been employed continuously in the railroad industry, excluding my 3 years of military service. I have preformed agreement-covered service in train, engine and yard service, and Yardmaster. I have been an officer since 1973 and have held positions in the operating department as Assistant Trainmaster, Trainmaster, Assistant Terminal Superintendent, Terminal Superintendent, Assistant to Superintendent, and Superintendent. Additionally, in the operating department I have assigned to the positions of Discipline Officer and Director - Employee Relations.

While assigned to the Industrial Relations Department I was a Training and Development Officer, Labor Relations Officer, Assistant Director and Director - Labor Relations. I have considerable experience in the arbitration process under the railway labor act, having participated over 500 cases before the First Division, Public Law Boards and Special Boards of Adjustment.

Primarily I have been employed in or in support of the territory that currently composes the former Southern Pacific Western Region. I have been stationed at El Paso (3), Bakersfield, Eugene, Los Angeles, Oakland, Roseville (2), Salinas, San Jose, and Tucson (3).
